A medical FSA is a benefit that allows you to choose how much of your paycheck you'd like to set aside, before taxes are taken out, for healthcare expenses. This saves you money by reducing your taxable income.

Don't know how much to elect? Determine how much you spent on healthcare expenses last year and estimate the amount you'll spend this year using our eligible expense list. All FSA funds you contribute to your medical FSA must be spent by the end of the plan year.

View our interactive eligible expense list at

www.walgreens.com/buy/signs/benefits-took-it/eligible-expenses. All of your FSA funds are available to spend right away. Use your benefits debit card at the point of purchase.

Think of it like a discount on healthcare expenses at stores such as Amazon, Target, CVS, Walmart, Walgreens and more. Dollars you contribute are taken out of your paycheck before tax which means a \$100 purchase would actually cost you over \$130 without a medical FSA.*

Think about the money you spent on healthcare expenses last year. Plan ahead and set those funds aside in a medical FSA and save 30%.*
